Hyalun®
oral hyaluronic acid
PRO

the original. just better.

In addition to leading the industry in quality and performance, Hyalun® PRO will be exhibiting a brand-new ergonomic handle. With the comfort of the user in mind, it is designed to fit easily into your hand, thus making it easier to administer the dosage to multiple horses without any additional strain on your fingers.

hyaluronic acid (HA)

has revolutionized the management of equine joint health through the years and Hyalun® has become the gold standard for orally administered hyaluronic acid products. From the makers of Hyalun®, comes Hyalun® PRO.

Hyalun® PRO is the most concentrated and the highest molecular weight HA product for horses in the market today. Hyalun® PRO was formulated for the horse that you push to the limit. In competition, in showing and in other strenuous exercise regimes, Hyalun® PRO is sure to give your horses' joints the protection they need. Now all you need to concentrate on is: ***winning***.
